

How to Find Out if the City Has Declared a Snow Emergency

In the case of inclement weather due to snow, the City of Falls Church will announce snow emergency route parking restrictions via the citizen emergency hotline (703-248-5200), the City's Emergency Radio Broadcast Station 1680 AM, the City's Web site www.fallschurchva.gov, local radio and television stations, and the City's local public access television channels (Cox Cable Channel 12 and RCN Cable Channel 2). The City will update these communication outlets when snow emergency route parking restrictions have been lifted.

Process for Plowing City Streets During a Snow Emergency

During a snow emergency, Public Works crews will work around the clock to ensure City streets are safe and passable. Snow emergency routes receive first priority for salting, sanding and plowing. Upon completion of clearing emergency routes, City crews will clear all other City streets.

What the City Needs You to Do

Traffic signs identify City streets that are snow emergency routes. Vehicles parked on these routes must be moved. Vehicles abandoned or parked on snow emergency routes may be ticketed and towed in order to allow Public Works snow removal crews to efficiently clear the roads.

What You Need to Know About Parking on a Snow Emergency Route

Snow Emergency Route Locations
